

Media Release Highlights of February 13, 2018 Board Meeting

Framework for Enhancing Student Learning

Christine Franes, District Principal – Learning Services, reported on the work of the Framework for Enhancing Student Learning Committee. Students across the district have been surveyed about their progress in meeting the goals set out in the Framework. While there were many positive results from the survey, it is clear that the district needs to continue to work at improving students skill and confidence in literacy and numeracy.

“The Board believes in the value of hearing, and responding to, student voice,” said Board Chair Tina Last. “Thank you to all of the partners participating on the Framework Committee for their hard work. With their continued engagement our district will be able to meet the needs of each of our students.”

Science Fair Success

As reported in December, Charles Hays Secondary School student Aaliyah Mahoubi attended the Taiwan International Science Fair as one of 2 Canadian delegates. The Board was pleased to hear that she won 3rd place in the competition! Trustees expressed their hope that she will make a presentation at a future Board meeting.
