

Media Release

June 2, 2020

The relationship between a superintendent and the Board is a unique one, and after reflection, the Board of Education for School District 52 Prince Rupert has determined it wishes to go in a different direction regarding district leadership.

Dr. Irene LaPierre, Superintendent has stated that she recognizes that it is within the Board's authority to have the superintendent they want, and has agreed to leave the employ of the district, as requested, immediately. "This provides the Board with the opportunity to recruit a new superintendent to lead the district going forward"

"I have been honored to serve children and families in School District 52 in collaboration with the leadership of school and district personnel. I am grateful for the opportunity to support learning and enhanced student achievement, particularly that of Indigenous students. It is my hope that the Board continues the work of the Equity in Action and Truth and Reconciliation plans to support optimal learning opportunities for all students."
