MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying financial statements of School District No. 52 (Prince Rupert) have been prepared by management in accordance with the accounting framework described in Note 2(a) of the financial statements, and the integrity and objectivity of these statements are management's responsibility. Management is also responsible for all of the notes and schedules to the financial statements, and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

The preparation of financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods.

Management is also responsible for implementing and maintaining a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and reliable financial information is produced.

The Board of Education of School District No. 52 (Prince Rupert) (the "Board") is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Board reviews internal financial information on a monthly basis and externally audited financial statements yearly.

The external auditors, KPMG, conduct an independent examination, in accordance with Canadian generally accepted auditing standards, and express their opinion on the financial statements. The external auditors have full and free access to financial management of the School District and meet, when required, with the Finance & Building Committee of the Board. The accompanying Independent Auditor's Report outlines their responsibilities, the scope of their examination and their opinion on the School District's financial statements.

INDEPENDENT AUDITORS' REPORT

To the Board of Education of School District No. 52 (Prince Rupert), and

To the Minister of Education and Child Care, Province of British Columbia

Opinion

We have audited the financial statements of School District No. 52 (Prince Rupert) (the Entity), which comprise:

- the statement of financial position as at June 30, 2022
- · the statement of operations for the year then ended
- · the statement of changes in net debt for the year then ended
- · the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of significant accounting policies (Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements as at and for the year ended June 30, 2022 of the Entity are prepared, in all material respects, in accordance with the financial reporting provisions of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "Auditors' Responsibilities for the Audit of the Financial Statements" section of our auditors' report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Financial Reporting Framework

We draw attention to note 2 to the financial statements which describes the applicable financial reporting framework and the significant differences between the financial reporting framework and Canadian public sector accounting standards.

Our opinion is not modified in respect of this matter.

Emphasis of Matter - Comparative Information

We draw attention to Note 20 to the financial statements which explains that certain comparative information presented for the year ended June 30, 2021 has been restated. Note 20 explains the reason for the restatement and also explains the adjustments that were applied to restate certain comparative information.

Our opinion is not modified in respect of this matter.

Other Matter - Comparative Information

As part of our audit of the financial statements for the year ended June 30, 2022, we also audited the adjustments that were applied to restate certain comparative information presented for the year ended June 30, 2021. In our opinion, such adjustments are appropriate and have been properly applied.

Other Information

Management is responsible for the other information. Other information comprises:

• Information, other than the financial statements and the auditors' report thereon, included in Unaudited Schedules 1-4 attached to the audited financial statements

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained the Information, other than the financial statements and the auditors' report thereon, included in the Unaudited Schedules 1-4 attached to the audited financial statements as at the date of this auditors' report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditors' report.

We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements in accordance with the financial reporting provisions of Section 23.1 of the Budget and Transparency and Accountability Act of the Province of British Columbia and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
 - The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the
 Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTE 1 AUTHORITY AND PURPOSE

School District No. 52 (Prince Rupert) (the "School District"), established on April 1, 1946, operates under the authority of the *School Act* of British Columbia as a corporation under the name of "The Board of Education of School District No. 52 (Prince Rupert)," and operates as "School District No. 52 (Prince Rupert)." A board of education (the "Board") elected for a four-year term governs the School District. The School District provides educational programs for students enrolled in schools in the district and is principally funded by the Province of British Columbia through the Ministry of Education and Child Care. School District No. 52 (Prince Rupert) is exempt from federal and provincial corporate income taxes.

The COVID-19 outbreak was declared a pandemic by the World Health Organization in March 2020 and has had a significant financial, market and social dislocating impact worldwide. Under direction of the Provincial Health Officer, all schools suspended in-class instruction in March 2020 and the District remained open to continue to support students and families in a variety of ways. Parents were given the choice to send their children back to school on a gradual and part-time basis beginning June 1, 2020 and full-time beginning September 1, 2020 with new health and safety guidelines. The ongoing impact of the pandemic presents uncertainty over future cash flows and may have a significant impact on future operations, including decreases in revenue, impairment of receivables, reduction in investment income and delays in completing capital project work. As the situation is dynamic and the ultimate duration and magnitude of the impact are not known, an estimate of the future financial effect on the District is not practicable at this time.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Accounting

These financial statements have been prepared in accordance with Section 23.1 of the *Budget Transparency and Accountability Act* of British Columbia. This Section requires that the financial statements be prepared in accordance with Canadian public sector accounting standards except in regard to the accounting for government transfers as set out in Notes 2(e) and 2(k).

In November 2011, Treasury Board provided a directive through Restricted Contributions Regulation 198/2011 providing direction for the reporting of restricted contributions whether they are received or receivable by the School District before or after this regulation was in effect.

As described in Notes 2(e) and 2(k), Section 23.1 of the *Budget Transparency and Accountability Act* and its related regulations require the School District to recognize government transfers for the acquisition of capital assets into revenue on the same basis as the related amortization expense. As these transfers do not contain stipulations that create a liability, Canadian public sector accounting standards would require these grants to be fully recognized into revenue.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

a) Basis of Accounting (Continued)

The impact of this difference on the financial statements of the School District is as follows:

	2022				2021 stated - Note 20)	
Increase (decrease) in annual surplus for the year ended June 30	\$	695,624	\$	901,033		
Increase in accumulated surplus and decrease in deferred capital revenue at June 30	\$	24,036,084	\$	23,340,460		

b) Cash and Cash Equivalents

Cash and cash equivalents include cash and highly liquid securities that are readily convertible to known amounts of cash and that are subject to an insignificant risk of change in value. These cash equivalents generally have a maturity of three months or less at acquisition and are held for the purpose of meeting short-term cash commitments rather than for investing.

c) Accounts Receivable

Accounts receivable are measured at amortized cost and shown net of allowance for doubtful accounts.

d) Unearned Revenue

Unearned revenue includes tuition fees received for courses to be delivered in future periods and funding received for services to be delivered in a future period. Revenue will be recognized in that future period when the courses or services are provided.

e) Deferred Revenue and Deferred Capital Revenue

Deferred revenue includes contributions received with stipulations that meet the description of restricted contributions in the Restricted Contributions Regulation 198/2011 issued by Treasury Board. When restrictions are met, deferred revenue is recognized as revenue in the fiscal year in a manner consistent with the circumstances and evidence used to support the initial recognition of the contributions received as a liability as detailed in Note 2(k).

Deferred capital revenue includes contributions received that are restricted by the contributor for the acquisition of tangible capital assets and meet the description of a restricted contribution in the Restricted Contributions Regulation 198/2011 issued by Treasury Board. Once spent, the contributions are amortized as revenue in the statement of operations on the same basis as the related amortization expense.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f) Employee Future Benefits

The School District provides employment benefits including vested and non-vested benefits for employees pursuant to contracts and union agreements. The School District accrues its obligations and related costs pursuant to these employee future benefit plans. Benefits include vested sick leave, accumulating non-vested sick leave, retirement/severance, vacation and banked overtime. The benefits cost is actuarially determined using the projected unit credit method pro-rated on service and using management's best estimate of expected salary escalation, termination rates, retirement rates and mortality. The discount rate used to measure obligations is based on the cost of borrowing. The cumulative unrecognized actuarial gains and losses are amortized over the expected average remaining service lifetime ("EARSL") of active employees covered under the plan.

For the purposes of determining the financial position of the plans and the employee future benefit costs, a measurement date of March 31 was adopted for all periods subsequent to July 1, 2004.

The School district and its employees make contributions to the Teachers' Pension Plan and the Municipal Pension Plan. The plans are multi-employer plans where assets and obligations are not separated. The costs are expensed as incurred, in accordance with defined contribution pension plan accounting.

g) Tangible Capital Assets

The following criteria apply:

- Tangible capital assets acquired or constructed are recorded at cost which includes amounts that are directly related to the acquisition, design, construction, development, improvement or betterment of the assets. Cost also includes overhead directly attributable to the acquisition or construction of the asset.
- Donated tangible capital assets are recorded at their fair market value on the date of donation, except in circumstances where fair value cannot be reasonably determined, in which case the assets are then recognized at nominal value. Transfers of capital assets from related parties are recorded at carrying value.
- Work-in-progress is recorded as an acquisition to the applicable asset class at substantial completion.
- Tangible capital assets are written down to residual value when conditions indicate they no longer contribute to the ability of the School District to provide services or when the value of future economic benefits associated with the sites and buildings are less than their net book value. The write-downs are accounted for as expenses in the statement of operations.
- Buildings that are demolished or destroyed are written-off.
- Works of art, historic assets and other intangible assets are not recorded as assets in these financial statements.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g) Tangible Capital Assets (Continued)

• The cost, less residual value, of tangible capital assets (excluding sites), is amortized on a straight-line basis over the estimated useful life of the asset. It is management's responsibility to determine the appropriate useful lives for tangible capital assets. These useful lives are reviewed on a regular basis or if significant events initiate the need to revise. Estimated useful life is as follows:

Buildings	40 years
Furniture & Equipment	10 years
Vehicles	10 years
Leasehold Improvements	5 years
Computer Software	5 years
Computer Hardware	5 years

h) Operating Leases

All current leases meet the definition for operating leases and the related payments are charged to expenses as incurred.

i) Prepaid Expenses

Prepaid expenses such as fees and dues are recorded as a prepaid expense, stated at acquisition cost and are charged to expense over the periods expected to benefit from them.

i) Funds and Reserves

Certain amounts, as approved by the Board are set aside in accumulated surplus for future operating and capital purposes. Transfers to and from funds and reserves are an adjustment to the respective fund when approved.

k) Revenue Recognition

Revenues that can be reasonably estimated and which are considered to be collectible are recorded on an accrual basis in the period in which the transactions or events occurred that gave rise to the revenues.

Contributions received, or receivable where eligibility criteria have been met, are recognized as revenue except where the contribution meets the criteria for deferral as described below. Eligibility criteria are the criteria that the School District has to meet in order to receive the contributions, including authorization by the transferring government or organization.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k) Revenue Recognition (Continued)

For contributions subject to a legislative or contractual stipulation or restriction as to their use, revenue is recognized as follows:

- Non-capital contributions for specific purposes are recorded as deferred revenue and recognized as revenue in the year the related expenses are incurred,
- Contributions restricted for site acquisitions are recorded as revenue when the sites are purchased, and
- Contributions restricted for tangible capital assets acquisitions or construction, other than sites, are recorded as deferred capital revenue and amortized over the useful life of the related assets.

Donated sites are recorded as revenue at fair market value when received or receivable. Donated tangible capital assets other than sites are recorded at fair market value and amortized over the useful life of the assets.

Revenue related to fees or services received in advance of the fee being earned or the service being performed is deferred and recognized when the fee is earned or service is performed.

Investment income is reported in the period earned. When required by the funding agreement or applicable legislation, investment income earned on deferred revenue or deferred capital revenue is added to the deferred balance.

1) Expenditures

Expenses are reported on an accrual basis. The cost of all goods consumed and services received during the year is expensed.

Categories of Salaries

- Employees who are registered with and pay union dues to the British Columbia Teachers Federation are categorized as Teachers.
- The Director of Instruction, Principals, Vice Principals and Administrators are categorized as Principals and Vice Principals.
- Indigenous Family Support Workers, Education Assistants, Kindergarten Support Workers, Study Centre Workers and Teacher Assistants are categorized as Education Assistants.
- Custodians, the Laboratory Assistant, Library Assistants, Maintenance staff, Noon Hour Supervisors and Secretaries are categorized as Support Staff.
- Accounting staff, the Assistant Superintendent, the Occupational Therapist, the Secretary-Treasurer, Speech Language Pathologists, the Superintendent, Trustees, and other employees excluded from union contracts are categorized as Other Professionals.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1) Expenditures (Continued)

Allocation of Costs

- Operating expenses are reported by function, program, and object. Whenever possible, expenditures are determined by actual identification. Additional costs pertaining to specific instructional programs, such as Indigenous education and special education, are allocated to these programs. All other costs are allocated to related programs.
- Salaries of personnel assigned to two or more functions or programs are allocated based on the time spent in each function and program. Salaries of Principals, Vice-Principals and school-based clerical staff are allocated to school administration and may be partially allocated to other programs to recognize their other responsibilities.
- Employee benefits and allowances are allocated to the same functions and programs, and in the same proportions, as the individual's salary.
- Supplies and services are allocated based on actual program identification.

m) Financial Instruments

A contract establishing a financial instrument creates, at its inception, rights to receive or obligations to deliver economic benefits. Financial assets portray these rights and financial liabilities portray these obligations in the financial statements. The School District recognizes a financial instrument when it becomes a party to a financial instrument contract.

Financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, and other liabilities.

Portfolio investments in equity instruments quoted in an active market are recorded at fair value. All other financial assets and liabilities are recorded at cost or amortized cost. The associated transaction costs are added to the carrying value of these investments upon initial recognition. Transaction costs are incremental costs directly attributable to the acquisition of a financial asset or the issue of a financial liability.

Unrealized gains and losses from changes in the fair value of financial instruments are recognized in the statement of remeasurement gains and losses. Upon settlement, the cumulative gain or loss is reclassified from the statement of remeasurement gains and losses and recognized in the statement of operations. Interest and dividends attributable to financial instruments are reported in the statement of operations. There are no remeasurement gains or losses during the periods presented; therefore, no statement of remeasurement gains or losses is included in these financial statements.

All financial assets except derivatives are tested annually for impairment. When financial assets are impaired, impairment losses are recorded in the statement of operations. A write-down of a portfolio investment to reflect a loss in value is not reversed for a subsequent increase in value.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m) Financial Instruments (Continued)

For financial instruments measured using amortized cost, the effective interest rate method is used to determine interest revenue or expense.

n) Measurement Uncertainty

The preparation of financial statements in accordance with the basis of accounting described in Note 2(a) requires management to make estimates and assumptions that impact reported amounts of assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting periods. Significant areas requiring the use of management estimates relate to the potential impairment of assets, rates for amortization and estimated employee future benefits. Actual results could differ from those estimates.

o) Future Changes in Accounting Policies

PS 3280 Asset Retirement Obligations, issued August 2018, establishes standards for recognition, measurement, presentation and disclosure of legal obligations associated with the retirement of tangible capital assets and is effective July 1, 2022. A liability will be recognized when, as at the financial reporting date:

- i. there is a legal obligation to incur retirement costs in relation to a tangible capital asset;
- ii. the past transaction or event giving rise to the liability has occurred;
- iii. it is expected that future economic benefits will be given up; and
- iv. a reasonable estimate of the amount can be made.

Liabilities are recognized for statutory, contractual or legal obligations associated with the retirement of tangible capital assets when those obligations result from the acquisition, construction, development or normal operation of the assets. Obligations which can reasonably be estimated are measured initially at fair value, determined using present value methodology, and the resulting costs capitalized into the carrying amount of the related tangible capital asset. In subsequent periods, the liability is adjusted for accretion and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost is amortized on the same basis as the related asset and accretion expense is included in the statement of operations.

A modified retroactive application has been recommended by Government. Management is in the process of assessing the impact of adopting this standard on the School District's financial results.

PS 3400 Revenue, issued November 2018, establishes standards on how to account for and report on revenue and is effective July 1, 2023. Specifically, it differentiates between revenue arising from transactions that include performance obligations, referred to as "exchange transactions", and transactions that do not have performance obligations, referred to as "non-exchange transactions".

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

o) Future Changes in Accounting Policies (Continued)

Revenue from transactions with performance obligations should be recognized when (or as) the school district satisfies a performance obligation by providing the promised goods or services to a payor.

Revenue from transactions with no performance obligations should be recognized when a school district:

- i. has the authority to claim or retain an inflow of economic resources; and
- ii. identifies a past transaction or event that gives rise to an asset.

This standard may be applied retroactively or prospectively. Management is in the process of assessing the impact of adopting this standard on the School District's financial results

NOTE 8 EMPLOYEE FUTURE BENEFITS

Benefits include vested sick leave, accumulating non-vested sick leave, retirement/severance, vacation, and banked overtime. Funding is provided when the benefits are paid and, accordingly, there are no plan assets. Although no plan assets are uniquely identified, the School District has provided for the payment of these benefits.

The most recent valuation of the obligation was performed at March 31, 2022 and projected to March 31, 2025. The next valuation will be performed at March 31, 2025 for use at June 30, 2025.

The impact of changes in assumptions between the March 31, 2022, measurement date and June 30, 2022, reporting date have been considered and are not considered to be material.

NOTE 10 WRITE-DOWN AND WRITE-OFF OF SITES AND BUILDINGS

Kanata Elementary School and Seal Cove Elementary School were closed on July 1, 2008 and the buildings were demolished in the year ended June 30, 2020. There has been no write-down of the land associated with these sites at June 30, 2022.

École Westview Elementary School was closed on August 31, 2011. There has been no write-down or disposal of this land or building at June 30, 2022.

The net book value of the closed school sites at June 30, 2022 is as follows:

NOTE 11 EMPLOYEE PENSION PLANS

The School District and its employees contribute to the Teachers' Pension Plan and the Municipal Pension Plan (jointly trusteed pension plans). The boards of trustees for these plans, representing plan members and employers, are responsible for administering the pension plans, including investing assets and administering benefits. The plans are multi-employer defined benefit pension plans. Basic pension benefits are based on a formula.

As at December 31, 2021, the Teachers' Pension Plan had about 50,000 active members and approximately 40,000 retired members. As of December 31, 2021, the Municipal Pension Plan has about 227,000 active members, including approximately 29,000 from school districts.

Every three years, actuarial valuations are performed to assess the financial position of the plans and the adequacy of plan funding. The actuary determines appropriate employer and member contribution rates to fund the plans. The actuary's calculated contribution rates are based on the entry-age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plans. This rate may be adjusted for the amortization of any actuarial funding surplus and will be adjusted for the amortization of any unfunded actuarial liability.

NOTE 11 EMPLOYEE PENSION PLANS (Continued)

The most recent actuarial valuation of the Teachers' Pension Plan, as at December 31, 2020, indicated a \$1.58 billion surplus for basic pension benefits on a going concern basis. The next valuation will be as at December 31, 2023, with results available in the last quarter of 2024.

The most recent actuarial valuation for the Municipal Pension Plan as at December 31, 2018, indicated a \$2.87 billion funding surplus for basic pension benefits on a going concern basis. The next valuation will be as at December 31, 2021, with results available in 2022.

The school district paid \$2,277,928 for employer contributions to the plans for the year ended June 30, 2022 (2021: \$2,343,662)

NOTE 12 INTERFUND TRANSFERS

For the year ended June 30, 2022, a total of \$121,178 (2021 - \$84,837) was transferred from the operating fund to Classroom Enhancement Fund special purpose funds. There were no funds transferred from the operating fund and special purpose funds to the capital fund for capital purchases.

NOTE 13 RELATED PARTY TRANSACTIONS

The School District is related through common ownership to all Province of British Columbia ministries, agencies, school districts, health authorities, colleges, universities, and crown corporations. Transactions with these entities, unless disclosed separately, are considered to be in the normal course of operations and are recorded at the exchange amount.

NOTE 14 CONTRACTUAL OBLIGATIONS

The School District has entered into a number of multiple-year contracts for the delivery of services and the lease of educational space. These contractual obligations will become liabilities in the future when the terms of the contracts are met. Disclosure relates to the unperformed portion of the contracts.

One building lease has a term that expires on August 31, 2032. Rates are renewed in five year intervals, with the next rate renewal effective September 1, 2022. The amount of lease payments from September 1, 2022 to August 31, 2032 is assumed to be equal to the current lease rate.

The other building lease has a term that expires on July 15, 2026.

NOTE 14 CONTRACTUAL OBLIGATIONS (Continued)

Contractual obligations	2023	2024	2025	2026	2027	Tl	nereafter
Building Leases	\$108,306	\$108,306	\$108,306	\$ 38,054	\$ 35,000	\$	180,833

	\$112,161	\$ 109,848	\$109,250	\$ 38,683	\$ 35,000	\$	180,833

NOTE 15 CONTINGENT LIABILITIES

Management is of the opinion that the School District has valid defenses and appropriate insurance coverage in place for claims at June 30, 2022 or, if there is unfunded risk, such claims are not expected to have a material effect on the School District's financial position. Outstanding contingencies are reviewed on an ongoing basis and are provided for based on management's best estimate of the ultimate settlement.

NOTE 16 BUDGET FIGURES

The annual budget for the School District for the year ended June 30, 2022 was approved by the Board on May 11, 2021. In accordance with Ministry policy, an amended annual budget for the School District was approved by the Board on February 15, 2022. The amended annual budget reflects funding based on actual enrolment on September 30, 2021 and is considered by the Board to more accurately reflect the expected results for the year. These financial statements show the amended annual budget.

The annual budget and the amended annual budget are compared below:

				Amended
		Annual Budget	Aı	nnual Budget
Revenues	\$	31,331,944	\$	32,359,856
Expenses		31,462,195		32,651,537

Total Accumulated Operating Surplus	 1,078,670	\$	743,044

NOTE 19 ECONOMIC DEPENDENCE

The operations of the School District are dependent on continued funding from the Ministry of Education and Child Care and various governmental agencies to carry out its programs. These financial statements have been prepared on a going concern basis.

NOTE 20 PRIOR PERIOD ADJUSTMENT

On May 28, 2021, the Office of the Comptroller General directed all school districts to apply the half-year rule method of amortization beginning in the fiscal year an asset is placed into service. This directive applies to both past and future purchases. Prior to this directive, the district did not recognize amortization in the first partial service year. The School District has made a retroactive adjustment to recognize amortization of all assets and deferred capital contributions beginning in the first service year. The impact of the prior period adjustment on the June 30, 2021 comparative amounts is as follows:

	Incr	ease (Decrease)
Tangible Capital Assets	\$	(423,117)
Deferred Capital Revenue		219,343
Accumulated Surplus (Deficit)		(642,460)
Amortization of Deferred Capital Revenue		58,042
Operations & Maintenance Expense – Asset amortization		34,466
Accumulated Surplus – beginning of the year July 1, 2020		(666,036)

NOTE 21 COMPARATIVE FIGURES

Comparative figures in the financial statements have been reclassified to conform to the current year's presentation. There was no change to the annual surplus for the prior year arising from these changes.

NOTE 22 RISK MANAGEMENT

The School District has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk. The Board ensures that the School District has identified its risks and ensures that management monitors and controls or mitigates them.

a) Credit risk:

Credit risk is the risk of financial loss to the School District if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Such risks arise principally from certain financial assets held consisting of cash, amounts receivable and investments.

The School District is exposed to credit risk in the event of non-performance by a debtor. This risk is mitigated as most amounts receivable are due from the Province and are collectible.

It is management's opinion that the School District is not exposed to significant credit risk associated with its cash deposits and investments as they are placed in recognized British Columbia institutions or held by the Ministry of Finance.

b) Market risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of currency risk and interest rate risk.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the foreign exchange rates. It is management's opinion that the School District is not exposed to significant currency risk, as amounts held and purchases made in foreign currency are insignificant.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The School District is not exposed to significant interest rate risk as it does not hold portfolio investments.

c) Liquidity risk

Liquidity risk is the risk that the School District will not be able to meet its financial obligations as they become due.

NOTE 22 RISK MANAGEMENT (Continued)

c) Liquidity risk: (Continued)

The School District manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing activities to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the School District's reputation.

Risk management and insurance services for all School Districts in British Columbia are provided by the Risk Management Branch of the Ministry of Finance. There have been no changes to risk exposure from 2021 related to credit, market or liquidity risks.
